

POLICY 6570
BEFORE AND/OR AFTER-SCHOOL CHILD CARE PROGRAMS

An individual school can accommodate a state licensed before and/or after-school child care program in the school in accordance with state law.

There shall be no cost to the District for the operation of a before and/or after-school child care program in a District school, including the cost of secretarial time. Child care program services shall be paid for by the users of the services.

Rental fees for the use of school facilities for before and/or after-school child care programs shall be annually approved by the School Board.

RULE 6570
BEFORE AND/OR AFTER-SCHOOL CHILD CARE PROGRAMS

1. The Parent/Teacher Association or a parent organization in the school's attendance area must express an interest in exploring before/after-school child care services.
2. With the direct involvement of the school site council, a before/after-school site child care committee must be formed to assess the need for the service. The committee must include a representative from the school, the principal, and representative parents/guardians from the school's attendance area.
 - a. A survey that will determine the need for assistance and the type of services needed must be distributed to each family in that school's attendance area. The survey must clearly state that services will be paid for by the users of the services. The survey results must be analyzed and summarized so that they can be used in developing the program needed.
 - b. The school site child care committee must define the type of program desired, the program's parameters, and decide on the space within the building to be utilized. There shall be no cost to the District for the operation of the program, including the cost of secretarial time.
 - c. The school site child care committee must write a Request for Proposal basno cost 5D0.0007.J224(The 6. TherbT
