“During the 2016-17 school year, administration presented the proposal for switching from a student rank system to a tiered Laude system for all KUSD high school students. This project revised the weights applied for various high school courses (honors, AP, dual credit, etc.) and worked to promote individual achievements rather than student competition. The majority of high schools in the United States do not report rank, but establish achievement levels based on weighted GPA scores. Ultimately, the KUSD School Board approved this proposal and the implementation began with the following grade 8 cohort group. That group is the current grade 12 cohort with a 2022 graduation date. These achievement levels appear on student transcripts and diplomas.

The current KUSD Policy 5610 Valedictorian, Salutatorian, Wisconsin Academic Excellence Higher Education Scholarship established the criteria for recognizing the top student rank positions, and the process for identification for a state sponsored scholarship. The next act would be to remove this policy as it no longer applies. High school staff will still have access for pertinent rankings and share those with external institutions when necessary (i.e. scholarships). Any related scholarships based on ranking will be reviewed

and a process established for school administration to determine respective placement and awards. The Counseling section of each school website will retain the documentation and explanations of the respective Laude program and conditions, as well as all directions and explanations related to students applicable for scholarships that require student rank data.

Administration recommends that the School Board accept the proposed removal of Policy 5610 Valedictorian, Salutatorian, Wisconsin Academic Excellence Higher Education Scholarship as a first reading at its December 14, 2021, meeting and to forward this proposal for a second reading at its January 25, 2022, meeting.”

Mr. Keckler presented the Four-Year Graduation Rate – Cohort Analysis submitted by Mrs. Laura Sawyer, Data Analyst; Mr. Haithcock; Mr. Keckler; and Dr. Ormseth, excerpts follow:

“The “Four Year Graduation Rate – Cohort Analysis” report is a comprehensive examination of the graduation rates of the Kenosha Unified School District (KUSD) for the Graduation Class of 2021. This is the annual graduation report to the Kenosha Unified School Board as it examines each graduation class in terms of a “static” graduation rate, referred to as “Base Cohort”. All KUSD students who enter grade nine are tracked until the end of their class’s designated graduation cycle (four years later). No allowance is made for any students who enter that class as it progresses from the ninth grade until the twelfth grade and its eventual graduation. For example, first-time ninth graders who are in attendance on the Official Third Friday Count Day during School Year 2017-18 are tracked with respect to their educational progress until the end of summer school in August 2021. Therefore, the ninth graders of School Year 2017-18 become the Graduation Class of 2021 (School Year 2020-21). Additionally, this report also examines the graduation rates in terms of progress made beyond a designated graduation year, that is, the five year rate of the Graduation Class of 2020. This process aligns to both the Wisconsin state statute for allowing for a free education until a student reaches 20. This is a -
